

48-818.02. School district, educational service unit, or community college; total compensation; considerations.

When determining total compensation pursuant to subsection (1) of section 48-818 for a school district, educational service unit, or community college with their certificated and instructional employees, the commission shall consider the employer's contribution to retirement plans and health insurance premiums, premium equivalent payments, or cash equivalent payments and any other costs, including Federal Insurance Contributions Act contributions, associated with providing such benefits.
